

## Udzungwa 2009 Q3

**Year:**

2009

**Communications activities:**

The Site Manager met the new chief park warden of the national park and introduced TEAM project.

**Unusual Events at the TEAM Site:**

None

**New Species:**

None

**Schedule Problems:**

None

**Logistical Problems:**

Only the climate monitoring continued in this quarter. The problems of data downloading from datalogger reported earlier were fixed, and so the process of moving the tower to its final position could begun. The tower has eventually been moved in April 2010. A strong fence was built to protect the tower from thefts and elephants.
